

Access to and Support in setting up an Area Group

Our Area Groups are mainly available in the UK for all members of the AoR. These closely-knit support networks consist of other reflexologists in your area who are there for each other to provide support, advice, treatment swaps, talks and much more. As an AoR member, they will warmly welcome you to join them in their many and varied activities.

If you find that there isn't one in your area, why not get together with a few of your peers and set one up? We'll help you set up and provide support to get your Group going!
