

**BOOK REVIEW:**

**THE HOMEOPATHIC CONVERSATION: THE ART OF TAKING THE CASE**  
Dr Brian Kaplan

This book is from a homeopathic's perspective assessing the relative importance of case-taking skills to the knowledge of homeopathic remedies. Kaplan includes practical advice on improving techniques in the consulting room, and has provided chapters on treating specific groups including children, patients in therapy, doctors and other homeopaths. Kaplan's book is of value not just to students and practitioners of homeopathy, but to all complementary and alternative therapists, as well as conventional doctors interested in studying ways of deepening the practitioner-patient relationship. For further reviews on the book see the website [www.homeopathicconversation.com](http://www.homeopathicconversation.com).
